

The Playground

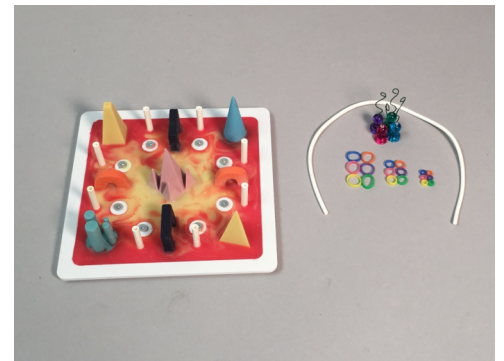

Thank you for buying products from **3-Dmed**.

The Playground provides a fun environment to learn basic robotic and traditional laparoscopic skills

The Playground comes with:

- (1) Game Board
- (4) Magnetic Pawns
- (12) Rubber Rings of three different sizes
- (1) White Rubber Tube
- (2) Sets of adhesive hook and loop for mounting into trainers

Suggested Playground Activities:

- Pass rings between right and left hands
- Pass tube between right and left hands
- Thread the rings onto the tube
- Feed the tube through the arches
 - Pass the rings on the tube through the arches
- Move the rings onto corresponding color shapes
- Place rings onto magnetic pawn wires
- Use the tube to “run a bowel”
- Tie the tube around the arches into a knot
- Tie knots with the tube around the bases of the shapes
- Practice surgeon’s knots with sutures around the tube
- Pass rings from one shape to other shapes, switch hands between each move
- Use instruments and/or suture needle to place and replace magnetic pawns on the metal screws
- Use a suture to tie wire loops on magnetic pawns together
